

# Let's Establish a Child Tax Credit of \$1,000 per child in Rhode Island for 2025 - H 7924 (Tanzi) & S 2575 (Cano)

Representative  
Christopher R. Blazewski  
House District 2

When we invest in working families, we invest in Rhode Island's economy.

**Did you know?** 790 House District 2 households filed for the Child Tax Credit.\*

## Children in CTC households have:

Less child  
welfare  
involvement

Better school  
performance

More  
college  
enrollment

113,210\*

households statewide are helped by the CTC.  
Instituting a state CTC of \$1,000 would boost  
household incomes by an average of \$1,595.

## House District 2 impact from CTC:\*

Annual federal CTC dollars	\$2,081,000
----------------------------	-------------

Annual CTC dollars from state CTC	\$0
--------------------------------------	-----

Annual CTC dollars from instituting state CTC of \$1,000	\$1,260,240
---	-------------

## Why raising the CTC works for Rhode Island families:

- The CTC lets low-and modest-income families offset the cost of raising children by helping them pay for things like education, child care, and transportation.
- The CTC reduces the number of children living in poverty and improves kids' chances of success as adults.
- Because Black, Indigenous, and Latino children experience higher rates of child poverty, the CTC disproportionately reduces poverty for these historically marginalized populations.

\*Annual federal dollars are for CTC in Tax Year 2019. Estimates for the state CTC are based upon number of federal filers in 2019 and per filer average from the state child tax rebate in 2022.

# Let's Establish a Child Tax Credit of \$1,000 per child in Rhode Island for 2025 - H 7924 (Tanzi) & S 2575 (Cano)

Representative  
Edith H. Ajello  
House District 1

When we invest in working families, we invest in Rhode Island's economy.

**Did you know?** House District 1 households filed for the Child Tax Credit.\*

## Children in CTC households have:

Less child  
welfare  
involvement

Better school  
performance

More  
college  
enrollment

113,210\*

households statewide are helped by the CTC.

Annual CTC dollars from instituting state CTC of \$1,000	<b>\$2,951,194</b>
---	--------------------

## Why raising the CTC works for Rhode Island families:

- The CTC lets low-and modest-income families offset the cost of raising children by helping them pay for things like education, child care, and transportation.
- The CTC reduces the number of children living in poverty and improves kids' chances of success as adults.
- Because Black, Indigenous, and Latino children experience higher rates of child poverty, the CTC disproportionately reduces poverty for these historically marginalized populations.

\*Annual federal dollars are for CTC in Tax Year 2019. Estimates for the state CTC are based upon number of federal filers in 2019 and per filer average from the state child tax rebate in 2022.

# Let's Establish a Child Tax Credit of \$1,000 per child in Rhode Island for 2025 - H 7924 (Tanzi) & S 2575 (Cano)

Representative

- Because Black, Indigenous, and Latino children experience higher rates of child poverty, the CTC disproportionately reduces poverty for these historically marginalized populations.

\*Annual federal dollars are for CTC in Tax Year 2019. Estimates for the state CTC are based upon number of federal filers in 2019 and per filer average from the state child tax rebate in 2022.

# Let's Establish a Child Tax Credit of \$1,000 per child in Rhode Island for 2025 - H 7924 (Tanzi) & S 2575 (Cano)

Representative  
Tina L. Spears  
House District 36

When we invest in working families, we invest in Rhode Island's economy.

**Did you know?** **1330** House District 36 households filed for the Child Tax Credit.\*

## Children in CTC households have:

Less child  
welfare  
involvement

Better school  
performance

More  
college  
enrollment

**113,210\***

households statewide are helped by the CTC.  
Instituting a state CTC of \$1,000 would boost  
household incomes by an average of **\$1,595**.

## House District 36 impact from CTC:\*

Annual federal CTC dollars	<b>\$3,443,000</b>
----------------------------	--------------------

Annual CTC dollars from state CTC	<b>\$0</b>
--------------------------------------	------------

Annual CTC dollars from instituting state CTC of \$1,000	<b>\$2,121,669</b>
---	--------------------

## Why raising the CTC works for Rhode Island families:

- The CTC lets low-and modest-income families offset the cost of raising children by helping them pay for things like education, child care, and transportation.
- The CTC reduces the number of children living in poverty and improves kids' chances of success as adults.
- Because Black, Indigenous, and Latino children experience higher rates of child poverty, the CTC disproportionately reduces poverty for these historically marginalized populations.

\*Annual federal dollars are for CTC in Tax Year 2019. Estimates for the state CTC are based upon number of federal filers in 2019 and per filer average from the state child tax rebate in 2022.

households statewide are helped by the CTC.  
Instituting a state CTC of \$1,000 would boost  
household incomes by an average of **\$1,595**.

## House District 53 impact from CTC:\*

Annual federal CTC dollars	<b>\$4,070,000</b>
----------------------------	--------------------

Annual CTC dollars from state CTC	<b>\$0</b>
--------------------------------------	------------

Annual CTC dollars from instituting state CTC of \$1,000	<b>\$2,424,765</b>
---	--------------------

## Why raising the CTC works for Rhode Island families:

- The CTC lets low-and modest-income families offset the cost of raising children by helping them pay for things like education, child care, and transportation.
- The CTC reduces the number of children living in poverty and improves kids' chances of success as adults.
- Because Black, Indigenous, and Latino children experience higher rates of child poverty, the CTC disproportionately reduces poverty for these historically marginalized populations.

\*Annual federal dollars are for CTC in Tax Year 2019. Estimates for the state CTC are based upon number of federal filers in 2019 and per filer average from the state child tax rebate in 2022.

Annual CTC dollars from state CTC	\$0
--------------------------------------	-----

Annual CTC dollars from instituting state CTC of \$1,000	\$2,552,384
---	-------------

## Why raising the CTC works for Rhode Island families:

- The CTC lets low-and modest-income families offset the cost of raising children by helping them pay for things like education, child care, and transportation.
- The CTC reduces the number of children living in poverty and improves kids' chances of success as adults.
- Because Black, Indigenous, and Latino children experience higher rates of child poverty, the CTC disproportionately reduces poverty for these historically marginalized populations.

\*Annual federal dollars are for CTC in Tax Year 2019. Estimates for the state CTC are based upon number of federal filers in 2019 and per filer average from the state child tax rebate in 2022.

# Let's Establish a Child Tax Credit of \$1,000 per child in Rhode Island for 2025 - H 7924 (Tanzi) & S 2575 (Cano)

Representative  
Michelle E. McGaw  
House District 71

When we invest in working families, we invest in Rhode Island's economy.

**Did you know?** **1590** House District 71 households filed for the Child Tax Credit.\*

## Children in CTC households have:

Less child  
welfare  
involvement

Better school  
performance

More  
college  
enrollment

**113,210\***

households statewide are helped by the CTC.  
Instituting a state CTC of \$1,000 would boost  
household incomes by an average of **\$1,595**.
